## Fine Particle Concentrations for Counties with Monitors Based on Air Quality Data from 2020 - 2022

This information is provided for illustrative purposes only and is not intended to predict the outcome of any forthcoming designations process. Future designations of attainment/nonattainment will not be based on these data, but likely on monitoring data collected between 2022 and 2024.

Does not meet the revised annual primary fine partcle ( $PM_{2.5}$ ) standard of 9.0  $ug/m^3$
